- **THIS IS COAST**

*End Grain • Mondriaan • Flat • Hand Sanded • Mosaic*

Blessed with beautiful watermarks, Coast is truly a sight for sore eyes. Made of mixed salvage, from the roots of trees plantages. Mother Nature has left her marks making each square unique. You'll never tire of looking. The practical value also scores major points: By giving Coast a flat surface, we've pretty much made its applications limitless.

- **THE WOOD**

Mixed salvage, means anything left behind or found on the factory or forest floor. That's one description for this category type. The combined sum of all our scavengery would be another. Think disused telegraph poles, girders, railroad sleepers, root wood, off-cuts, overstock and production surplus. The woods that end up in this mixed bag are from all over the globe.

## MISSION

To create joyous panelling from salvaged woods that enriches surfaces and enhances your interior.

We strive for the highest quality to produce panelling that will last a lifetime.

## HOW

We scour the land for woods that can be salvaged and upcycled, giving discarded timber a second lease on life. Typically, we'll turn a weathered girder into a striking collection of unique wall tiles.

It's a reincarnation of sorts.

## WHY

We love wood and working with craftspeople.

We love salvaging woods, breathing new life into something old, worn and weathered.

We love exploration and travel. We love design and having fun with like-minded souls.

That's why we do what we do the way we do it.
