- **THIS IS CREST**

American Walnut • Elegant • Geometric Shapes • Subtle Reliefs

Crest is a real globetrotter: American walnut, harvested in Croatia, used by an Italian furniture-maker from whom we source offcuts and rejected batches, cut and assembled by our craftsman in Slovakia, and finally sanded by hand and lacquered in the Netherlands. Crest has clean, elegant lines without becoming too formal. The geometric shapes combined with the richly textured panels and subtle reliefs make Crest an exciting and stylish addition to any interior.

- **THE WOOD**

A distinctive mix of soft sapwood tones and rejected darker heartwood, that's our American Walnut. It's beautiful purple brown hues offer a luxurious appearance from which you can barely keep your eyes off. The wood of walnut is flamed straight, but can have an occasional wavy or dancing grain that produces a very characteristic and attractive look. This makes our American Walnut all the way from our workshop in Vietnam the perfect wood for our Crest panels.

MISSION

To create joyous panelling from salvaged woods that enriches surfaces and enhances your interior.

We strive for the highest quality to produce panelling that will last a lifetime.

HOW

We scour the land for woods that can be salvaged and upcycled, giving discarded timber a second lease on life. Typically, we'll turn a weathered girder into a striking collection of unique wall tiles.

It's a reincarnation of sorts.

WHY

We love wood and working with craftspeople.

We love salvaging woods, breathing new life into something old, worn and weathered.

We love exploration and travel. We love design and having fun with like-minded souls.

That's why we do what we do the way we do it.
