WAVES

The Story

- ### THIS IS WAVES

Olive Wood • *Soft* • *Liquid Grain* • *Face Grain Cut* • *Made In Italy*

Our 'Waves' design is a textured wall panel made from reclaimed Olive Wood. Wood from the olive tree is a hard wood and has a splendid grain. This wood from the olive tree is excellent wood. The core of the trunk is a creamy-brown colour, with dark or black streaks. The grain can be wavy, burl or wild. The texture is fine and uniform with a natural lustre.

Wonderwall Studios uses the big pruned branches for its collections. Occasionally we'll source a complete tree, but as these are rare we mostly rely on the pruned branches. The permissions needed to fell a tree or to buy pruned branches are time-consuming, but absolutely necessary: the tree is an important economic resource. We respect this process and always regard receiving a new batch of olive tree wood to be a special moment.

WONDERWALL STUDIOS

wood	pruned olive wood
source	olive wood
tones	brown, light brown
finishing	smooth sanding
tile dimensions	600 x 200 mm / 23.6" x 7.9"
tile thickness	17-24 mm / 0.7"-0.9"
tile construction	glued on 9 mm / 0.4" plywood backer
tiles per box	8 pcs
surface per box	0,96 sqm / 10.33 sq ft

WONDERWALL STUDIOS

MISSION

To create joyous panelling from salvaged woods
that enriches surfaces and enhances your interior.
We strive for the highest quality to produce
panelling that will last a lifetime.

HOW

We scour the land for woods that can be salvaged
and upcycled, giving discarded timber a second
lease on life. Typically, we'll turn a weathered girder
into a striking collection of unique wall tiles.
It's a reincarnation of sorts.

WHY

We love wood and working with craftspeople.
We love salvaging woods, breathing new life
into something old, worn and weathered.
We love exploration and travel. We love design and
having fun with like-minded souls.
That's why we do what we do the way we do it.
