- THIS IS WHEELS

Evergreen • Strong Erosion • Bestseller • Globally Loved • Big Brother • Derelict Houses

This is one of our signature panels. It's hardwood reclaimed from redundant traditional building sources. The weather really went to work on this one, making it a diamond in the rough. Some great craftsmanship complements the natural erosion giving Wheels its unique feel of youthful antiquity.

- THE WOOD

If we come across an old house that has obviously been abandoned, we contact the owner. A price for the scrap wood is arranged and the house – or what's left of is sold to us. Woods we source from abandoned and derelict houses come in various degrees of erosion. The amount of erosion – from light to heavy – influences the colour and hue of a piece of timber. We source this type of wood on Java. You can imagine how the tropical climate weathers the timber.

MISSION

To create joyous panelling from salvaged woods that enriches surfaces and enhances your interior.

We strive for the highest quality to produce panelling that will last a lifetime.

HOW

We scour the land for woods that can be salvaged and upcycled, giving discarded timber a second lease on life. Typically, we'll turn a weathered girder into a striking collection of unique wall tiles.

It's a reincarnation of sorts.

WHY

We love wood and working with craftspeople.

We love salvaging woods, breathing new life into something old, worn and weathered.

We love exploration and travel. We love design and having fun with like-minded souls.

That's why we do what we do the way we do it.
