## RUSTICORK / BARK

RUSTICORK tiles and panels create natural, bold, unique and beautiful walls that only cork, obtained directly from the bark of the cork oak tree, can offer. The cork bark is particularly popular due to its low weight and uncomplicated installation on the wall.

### Description

- Glue-on wall installation
- CORKGUARD® finished
- Safe and easy to handle and install
- Increases the thermal comfort
- Reduces airborne noise
- No toxic gases when burning
- No PVC and no softeners or other chemicals hazardous to health or the environment
- Natural, biodegradable and recyclable product

### Material:

Cork, granulated and plain pieces of different sizes, shapes and qualities depending on the design type; Polyurethane cork binder.

**Dimensions:**  
600 x 300 mm

**Thickness:**  
25mm -35mm

**Colours:**  
Natural cork bark

**Design:**  
3D Installation

**Application:**  
Wall design

### Application example:

Anywhere you want to make the interior unique, office walls, hospitality, retail spaces, exhibition stands, reception areas and home.
