# **MORE RESISTANCE LESS WEIGHT**

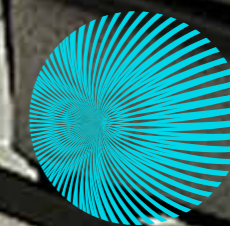

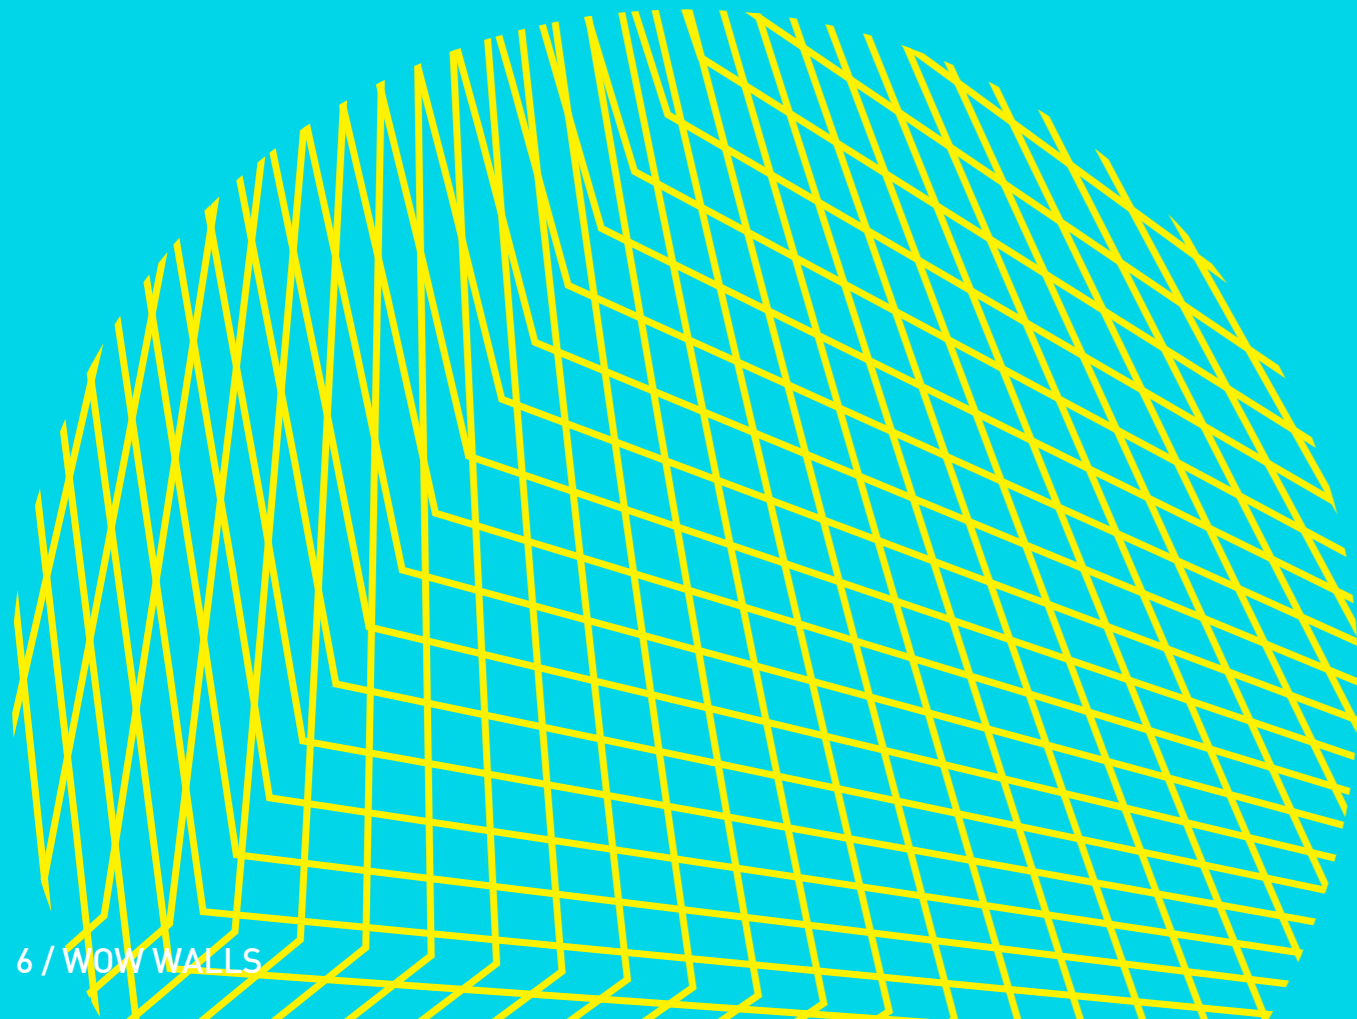

MAGNOLIA panels are made of SMC (SHEET MOULDING COMPOUND), an extremely light and resistant material used in automotive and health industries. For all these reasons, our panels have a guarantee of ten years.

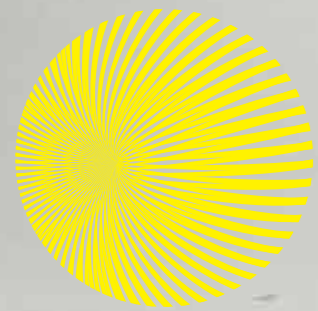

# ACCURATELY DESIGNED FOR A PERFECT FINISH.

- Perfect for wet rooms.
- Great thermal resistance (these panels do not contract or expand) and Inalterable to climate changes and UVA rays.
- Perfectly aligned joints barely perceptible and without the need for grouting.
- Suitable for indoor and outdoor spaces.
- Made of SMC (Sheet Moulding Compound).
- Lighter than other coatings.
- Highly resistant to impact and chemical.
- Accurately designed for a perfect finish.
- Classification of Reaction to fire: B-s2,d0.

## KOMODO

### BUILT ON THE PHILOSOPHY OF QUALITY, DESIGN AND RESISTANCE.

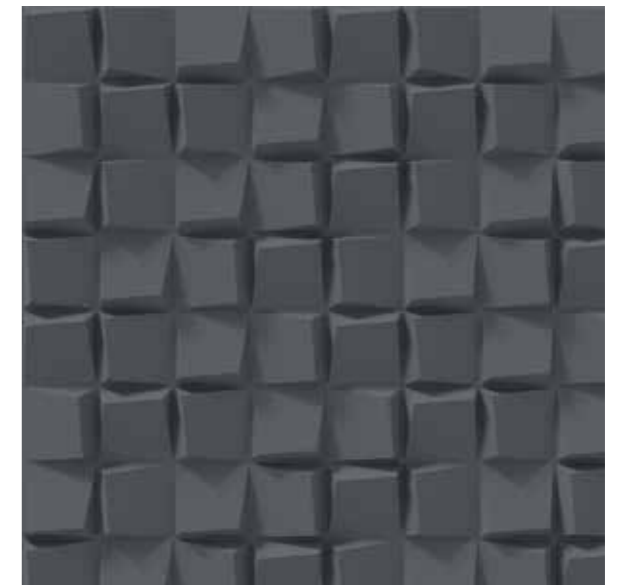

Inspired by the Komodo dragon skin texture. Magnolia 3D panels are very durable impact resistant panels, dimensionally stable, no thermal contraction or expansion, high resistance to aggressive chemicals and UV rays. Fire resistance and reaction to fire certified B-s2, do. The panels are non porous and easy to clean, easy installation without skilled labour.

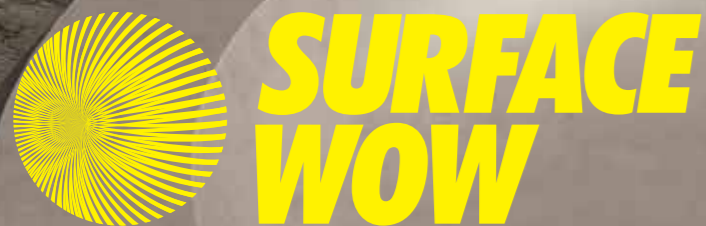

#### Product

<b>Material</b>	The 3D panels are made from one of the most resistant materials on the market: SMC Sheet moulding compound.
<b>Colour</b>	Jasmine rice RAL 9003 Lavastone RAL 7044 Cardamon RAL 7066 Cocoa RAL 8017 Nacre RAL 9002 Black Pearl RAL 7015 Black Beetle RAL 9005
<b>Finishes Paint</b>	Gold Chrome Gold Peral Silver chrome
<b>Finishes Wrapping</b>	It is possible to wrap with Architectural Design Films.
<b>Roll weight</b>	2.4 kg ~ 0.6 kg / m2
<b>Packaging</b>	Wallpaper glue and grout included

#### Specifications

<b>Material</b>	Sheet Moulding Compound
<b>Durability</b>	Indoor / Outdoor 10 Years
<b>Panel Thickness</b>	3D Tile 40mm
<b>Tile Size</b>	H: 830mm x W: 830mm
<b>Surface Of A Single Panel</b>	0.68m2
<b>Weight Of A Single Panel</b>	Between 4-5kg per panel

## MARTINIQUE

### BUILT ON THE PHILOSOPHY OF QUALITY, DESIGN AND RESISTANCE.

This model is as sinuous as the waves of the Caribbean sea, which bath the beaches of this paradisiacal island. Magnolia 3D panels are very durable impact resistant panels, dimensionally stable, no thermal contraction or expansion, high resistance to aggressive chemicals and UV rays. Fire resistance and reaction to fire certified B-s2, do. Te panels are non porous and easy to clean, easy installation without skilled labour.

# SUMATRA

## BUILT ON THE PHILOSOPHY OF QUALITY, DESIGN AND RESISTANCE.

Inspired by the stripes on the fur of the Sumatran tiger. Magnolia 3D panels are very durable impact resistant panels, dimensionally stable, no thermal contraction or expansion, high resistance to aggressive chemicals and UV rays. Fire resistance and reaction to fire certified B-s2, do. Te panels are non porous and easy to clean, easy installation without skilled labour.
