

BAUMBART

Artikel Nr.

BMB0000090HPLST

The experience of the Alpine forest, brought into interior spaces - all possible, with this unique natural surface. Lichen is a bio-indicator for clean, pure air. Crafted into this unique surface, it reminds us of the rugged mountain faces of the Alps. For an earthy, holistic interior design.

- pure, clean air in interior spaces, thanks to the air-filtering properties of lichen
- holistic interior design with earthy, natural colours
- the unique texture and smell bring the experience of a mountain forest into interior spaces.

Grey lichen in full, premium coverage on sturdy HPL. For almost all uses in interior design.

Characteristics

Raw material	PRIMAL LICHEN
Scent	● ○ ○
Light fastness	● ● ●
Abrasion resistance	● ● ●
Vibrancy	● ● ○

Technical details

Backing	HPL
Format	3.050 x 1.320 mm
MOQ	1 sheet (4.026 m ²)
Weight	2 kg/m ²
Thickness	2,4 mm
Flexibility	Bending radii up to 350 mm
Translucency	opaque

Processing

wood workers

Installation of Organoid natural surfaces on HPL engineered wood:

- Use like common HPL-panels, on many surfaces and constructions
- HPL-Platten am umlaufenden Rand ca. 2 cm besäumen – aufgrund von Materialauftragsdichte durch Streutechnik
- Cover the natural surface with the enclosed separating paper
- pressing temperature. 60°C
- For sensitive wood-working applications, use a counter-balance (enclosed on request)
- For cutting, use panel saws, table saws, hand-held circular saws, jigsaws, but also CNC-milling.
- Pre-trials recommended

To Installation
