

Artikel Nr. HOPBLI0065GTARW

A real eye-catcher, and not just for beer-lovers: this surface is made from loosely spread, silvery hop blossoms on golden paper. The soft shimmer of the light petals is accentuated by the golden paper, creating a high-carat surface with a luxury appeal.

- luxurious design with hop blossoms and golden paper
- real nature, highly recognisable
- the loosely spread hop blossoms create a sense of lightness

Softly shimmering hop blossoms in medium coverage on golden paper.

HOPFEN GOLD- on Golden Paper

Format	Rolled goods, width: 1,360 mm
MOQ	1 m ² (ca. 0.74 running metre)
Weight	220 g/m ²
Thickness	0,2 mm
Flexibility	Bending radii up to 2 mm
Translucency	opaque

Processing

wood workers

Installation of Organoid natural surfaces on golden paper in woodworking:

- Process with normal wood-working machinery
- Glue (e.g. white glue) is applied onto the wooden materials, as the fleece absorbs moisture and glue stains may appear on the front if glue is applied to the fleece
- Cover the natural surface with the enclosed separating paper
- pressing temperature. 60°C
- For sensitive wood-working applications, use a counter-balance (enclosed on request)
- Cut with scissors, cutter or plotter
- Pre-trials recommended

[To Installation](#)

Wallpaper

Installation of Organoid natural surfaces on golden paper as a wallpaper:

- Wall-pasting technique
- Additional soaking with a sponge and clear, cold water
- Pay attention to Organoid glue recommendations
- Double cut: Each panel overlaps with the one next to it (approx. 2 cm)
- Cut with scissors, cutter or plotter
- Pre-trials recommended
- In the case of wallpapers, the effect is to be checked after processing three strips. Claims that go beyond the replacement of defective goods will not be accepted.
