

MOOS HELLGRÜN medium - Self-adhesive translucent

Artikel Nr. MOSHGR0045SKTRW

A luminous forest in indoor spaces - with this bright green surface with real moss on translucent self-adhesive foil. The bright green colour and the moisture-regulating properties of our moss create a sense of freshness in your interior design. The interior climate is improved and our well-being is increased. On a strong, translucent self-adhesive foil for special light effects on glass or other surfaces.

- recycled moss enables sustainable interior design
- the biophilic design of the surfaces increases wellbeing and reduces stress
- the translucent self-adhesive foil is part of the design

Upcycled light green moss in medium coverage on a translucent self-adhesive backing - creates a beautiful effect when put in front of a light source or on glass.
